

LOCTITE®

Keep your parts moving with Loctite® 8201

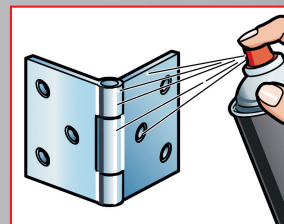

The lubricant providing 5 benefits in 1

Features & Benefits:

- Universal penetrating liquid which:
 1. Cleans parts
 2. Prevents corrosion on all machinery
 3. Frees assemblies such as fasteners, hinges and cylindrical joints
 4. Lubricates metal and provides light lubrication of small mechanisms
 5. Displaces moisture from damp electrical devices
- Service temperature range: -20 to +120°C

How to apply:

- Surfaces should be free from scale, oxides and lubricant residues
- Choose between jet and spray (based on application needs)
- Spray consistently onto parts to give a uniform film
